Welcome to “Passion and Pride”, a programme of unique and entertaining performances, exhibitions, workshops and celebrations of black heritage and culture in Leeds.

Twelve local community organisations have come together to develop Passion and Pride throughout 2007, culminating in this series of events across the city. Working in partnership with Leeds City Council’s Arts & Regeneration Unit, the partners have built on momentum established through Black History Month, which has seen a regular programme of African and Caribbean events and activities become established.

These organisations saw an opportunity to develop that work further to widen the region’s awareness and understanding of their diverse histories, heritage and cultures. This programme complements the range of BHM grant aided work being undertaken with support from the Council’s Equalities team. Look out for the separate Black History Month leaflet which will give details of more special events taking place in Leeds during October.

Passion and Pride has been supported by the Heritage Lottery Fund to enable black history and culture to be more widely celebrated throughout Leeds. It forms part of the Celebrate Leeds 2007 programme of events marking 800 years of our city.
