Visual Orator® Akosua Bambara presents her thoughtful and intelligent work of jewellery and ceramics. Each piece is created in memory of the African people who suffered and died during the decades of misery of chattel enslavement.

A combination of conflict and beauty, Akosua's work is designed as tactile pieces of art. Some may be worn to promote a gentle healing of the spirit. Her ceramics explore the meaning of symbolism and belief systems, complementing the fine enamelled and pertinent work of her Wall Jewellery®.
