

SLAVE TRADE ABOLITION IN CAMBRIDGESHIRE & SUFFOLK

An innovative Resource for Teaching Local, National and International History, Using Original Sources

These five Schemes of Work for Key Stages 1, 2 & 3, developed in partnership with Advisers and teachers, provide a range of original sources and a variety of tried and tested creative activities to introduce these two historical figures, examine historical evidence, challenge misconceptions about African history and place the Transatlantic Slave Trade within a local, nation and international historical context.

The resource celebrated the pair's successful partnership during Britain's first human rights campaign.
